To Whom It May Concern:

I am writing to you in support of Kimberly Nunlist, who has helped with editing my scientific papers on alternate energy for several years. Kimberly is insightful, quick to grasp new material, skilled at using sophisticated editing software, and always patient as she strives to untangle confusing text. She works equally well in a collaborative setting as well as independently.

I have known Kimberly for about 10 years in both a professional and social capacity. Her BA degree from UC Berkeley in Interdisciplinary Studies is a perfect fit to achieve technical clarity and understanding. Her ability to quickly grasp presented ideas with a few well phrased questions is an added bonus. Kim has the ability to advance with the continuous learning curve of editing technology.

I recommend Kimberly Nunlist to you and your clients enthusiastically and without reservation.

Please feel free to get in touch with me if you require more information.

Sincerely yours,

Roger Stringham
